Your Total Shading Solution

DuraShade Interior Retractable Solar Screen Systems

Adding function, style and efficiency to home interiors with the latest in solar protection technology.

If you are looking for superior indoor comfort, an increase in privacy and protection from interior fading that blends perfectly with any decor and lifestyle, look no further than **DuraShade Interior** retractable solar screen systems

DuraShade Interior systems are designed to blend with any home decor while providing maximum protection from solar glare and heat gain. Durasol offers a wide variety of designs and styles. Your local dealer will help you choose a system that blends perfectly with your home and interior furnishings.

REFLECTED
SOLAR
ENERGY:
up to 90%

Go Green and Reduce Heat Gain & Energy Cost

DuraShade systems effectively reflect up to 90% of solar energy, decreasing your home's temperature. Inside temperatures of homes protected by DuraShade systems can be up to 10°F cooler than non-protected homes. During winter months, Durasol shading systems help to add an extra layer of defense by providing protection from fading and sun glare.

R8500

Primary Application: Large or Multiple Windows

The DuraShade **R8500** is an attractive, custom-made shading system that combines pleasing aesthetics with advanced technology to increase the privacy of your home and create a comfortable, beautiful living environment. This unit can also help decrease interior fading from damaging UV rays, reduce energy bills, and give you complete control over your home's lighting and privacy.

- Keep the view and add privacy to your home
- Optional blackout feature allows you to eliminate distracting sun glare
- Offers an array of unique textured fabrics with many opacity options
- A 4" decorative fascia available to further enhance the fit and finish
